The fit, explained

Tucann trunks are cut tailored: a defined waist, a leg opening that follows the thigh rather than flaring, and an inseam of 3, 5 or 7 inches. That is why fit is the most praised feature and also why the few fit complaints exist. A tailored short has less room to hide a mismatch than baggy board shorts. The compression liner underneath is stretch fabric, so it accommodates a range of builds, but the outer leg opening is fixed.
